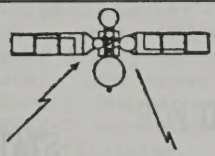
Valleyfield: CKOD 1370 QG for 102.9 w/3,000 watts

** Thirteen 10 watt native oriented stations approved, mostly in British Columbia, but also Iqaluit, NWT, Meander River, AB, and Wiarton, ON.

Not too much activity this month with changes. Probably just as well, with the huge Northern FM column, and I imagine the other DX columns will be quite large also. I do have some radio related articles, but will hold them till a "lighter" VUD, and when I have more time. Thanks to everyone who sent stuff in! Thanks for station items this month go out to Matt Sittel, Mike Jeziorski, Eric Bueneman, and espeically Doug Smith, for the Canadian info. Hopefully there will be more next time!



SATELLITE NEWS

George W. Jensen
4604 Anntana Avenue
Baltimore MD 21206-4220

The world of satellites continues to change. Here are some more services and satellite and transponder changes. Somewhat small column this month.

All Fox Network feeds are now on Telstar 401.
ANA - Arab Network of America from F2-1 to G6-10
Cornerstone from S2-21 to G6-14
Canada's MuchMusic US feed on G6-9 - will be VC2
Commercials and Cable Channel Promos on F2-15
Prime Time 24 is supposedly moving to Galaxy 4 in the Fall.
America Talks - new is on Galaxy 1 - XPDR 10
Cadena de Milagro Hispanic Religious from Puerto Rico on Telstar 302-20 ID's channels 54 and 68 as main channels with Channels 8 and 63 as repeaters (in Puerto Rico)
An old inclined and until lately inused Intelsat at about 32 West has been activated for World Cup feeds to Europe with activity in NTSC color on transponders 3V, 7V and 13V

G3-20 now hosts the Las Vegas TV Network (returning from the dead)
On TDRS 4 at 41 West - the following transponders were in use 24 hours per day for the World Cup - 1, 5, 13, 19, 21 and others less frequently - XPDR 17 was PAL color from a teleport in London to the US. Remember this satellite only has odd numbered transponders and only 12 at that.

F2-6 is the Merchandise Entertainment Network
G6-13 will be the Independent Film Channel
Coming soon on G7 will be the Talk Channel and the Game Show Network.
Noted on G7-21 - just an ID saying "This Is the TV! Network in VC2 encryption Provider ID of 36 given.

That's all for this month - hope to see you in 30

George

NEW STATIONS ON THE AIR

Dalton, GA: WELF-23Z
3390kW/447m
TL 34°57'07"N, 85°22'58"W
on Lookout Mountain near Rossville (just south of Chattanooga, Tenn.)

Seen by Ed Phelps in mid-June, and confirmed by my former supervisor who just started work with co-owned WPGD-50.
TBN affiliate.

Shreveport, LA: KWLB-45+
794kW/202m
TL 32°35'38"N, 93°51'39"W
in Shreveport proper

New member Danny Oglethorpe reports KWLB came on in early May with generic independent programming from American Independent Network, FamilyNet, and Home Entertainment Net.

Minneapolis, MN: KVBM-45Z
5000kW/375m
TL 45°03'44"N, 93°08'21"W
on the KARE-11 tower in Shoreview

Noted by Fred McCormack and Michael Parks in mid-June. HSC (Home Shopping) affiliate.

STATION BACK ON THE AIR

Schenectady, NY: WMHQ-45Z
2950kW/338m
TL 42°37'37"N, 74°00'40"W
Pinnacle Road, Albany

Seen in late June by a new member (sorry, Greg forwarded your name but I forgot to write it down!) in the Albany area. Al Quaglieri also reports them back on, though as WMHX.
PBS affiliate.

APPLICATIONS TO CHANGE EXISTING STATIONS

St	Ch	ERP	HAAT	Call	City
WI	10	?	373	WMVS	Milwaukee
	(was 309kW/308m)				
WI	36	4770	373	WMVT	Milwaukee
	(was 2340kW/283m)				

(both are moving to Holton Ave. & Capitol Drive)

CHANGES APPROVED FOR EXISTING STATIONS

St	Ch	ERP	HAAT	Call	City
CO	22	1878	256	KFCT	Ft. Collins

(TL 5km W of Pierce)

CALL LETTER CHANGES

Was	Now	City; province
CKKX-2	CICT-2	Calgary, AB
WMHX-45	WMHQ-45	Schenectady, NY
KRTJ-57	KVVV-57	Baytown, TX

OTHER STUFF

I mention the Alberta applications only to be complete— the CRTC later denied both sets of applications, so there will be no new skip targets in Alberta..

The Athabasca and Oshawa rebroadcasters are already on the air; their calls are CFRN-TV-12 and CHEX-TV-2 respectively. The Canadian trade magazine *BT* indicates that CHEX-TV-2 plans to eventually originate its own programming. Under normal CRTC procedures, this will mean a call letter change. No calls have been assigned to the Ottawa station yet, but they'll probably be CFMT-TV-2. Interestingly, the Canadian database lists Athabasca as 7.1kW and Oshawa as 5.5kW— not that it'll affect your DXing..

The KRTJ=>KVVV call change is unconfirmed.

WMVS and WMVT are co-owned educational stations. WMVS's new ERP is listed as also 4770kW, obviously a typo. Since VHF stations in that area must reduce ERP with HAATs above 300m, WMVS's power will be something less than 316kW— I'd estimate roughly 200kW.

WMHX (WMHQ?)-45 is on a relatively brief schedule of 2-11pm weekdays and 7am-4pm weekends.

The US Information Agency has changed its mind about moving TV Marti to UHF. Director Joseph Duffey also told Congress 4% of Cubans reported regularly watching TV Marti for five minutes or more at a time.

SPECIAL REPORT: THE FOX SURPRISE!

A number of further affiliate changes are in the works, as "Big 3" nets try to protect their affiliates from raids by other nets— or to sign affiliates where they've already lost them to Fox. Again, working by market:

Market #4, Philadelphia
KYW-3: from NBC to CBS.
WCAU-10: from CBS to ?

Westinghouse Group W has signed 10-year affiliation agreements with CBS for each of their five stations. This is the largest market affected. CBS will sell WCAU-TV, which will most likely become a NBC affiliate. (but these days, you never know!) Two of Group W's stations, KPIX-5 and KDKA-2, are already CBS affiliates.

Market #6, Boston
WBZ-4: from NBC to CBS
WHDH-7: from CBS to ?

WBZ is another Group W station.

Market #9, Detroit
WNEM-5: from NBC to CBS.
WEYI-25: from CBS to ? (prob. NBC)

WNEM is actually in the adjacent Saginaw-Bay City-Flint market. It comes to CBS as part of the Meredith deal (see Phoenix) but is also a bonus in light of the fact CBS will be on UHF in Detroit.

Market #12, Cleveland
WOIO-19: from Fox to CBS.

Malrite Corp. has signed with CBS. It's not yet known whether this will affect WOIO's LMA with WUAB-43.

Market #21, Phoenix
KPHO-5: from independent to CBS.

This is the result of a two-station deal between CBS and Meredith Corp.; the other station is WNEM-5 Bay City, Mich. (see Detroit)

(The Fox Surprise, contd.)

Market #22, Baltimore

WMAR-2: from NBC to ABC.
WJZ-13: from ABC to CBS.
WBAL-11: from CBS to NBC.

WMAR's switch results from the Scripps-Howard group deal, as mentioned last month. And WJZ's is from the Group W agreement. The WBAL switch is simply an assumption on my part.

Market #29, Kansas City

KMBC-9: not necessarily NBC.
KSHB-41: not necessarily ABC.

I jumped the gun a bit on this one; apparently the Scripps-Howard deal did not include KSHB. Why, I'm not sure.

Market #39, Memphis

Bert Ellis, owner of WMC-5 here, told *Broadcasting & Cable* he'd been approached by Fox, but turned them down. WMC will remain a NBC affiliate.

Market #178, El Centro/Yuma

KSWT-13: from NBC to CBS.

This replaces KECY-9, which is going Fox as a group deal with WSFX-26 (formerly WJKA). CBS called Yuma/El Centro "one of the fastest-growing metropolitan areas"– but there sure isn't much of a population base to start from!

FORUM

Fred McCormack, St. Paul MN

Among a whole bunch of LPTV info, Fred notes some rather strange applications by TBN to change the city-of-license of some of their LPTVs. One specific instance involves K58CM Duluth being approved to move to channel 29 (becoming K29DG) and move the city of license to Wausau, Wis.– a distance of 174 miles! He's seen a half-dozen or more similar cases, and asks whether this is a way of avoiding the need to compete with other applicants. Sure sounds that way. It would appear there is no limit on how far you can change the city-of-license for a LPTV!

Tim Noonan, Madison WI

Tim forwards an item from Daniel Sampson in Arcadia, Wis. about a new LPTV in LaCrosse. "KQEG-TV" is to be called "Eagle TV" (associated KQEG-102.7 calls itself "the Eagle") and carry "wholesome family programming"– read that, old B&W movies & serials.

Fred McCormack reports this is K50DK, licensed to LaCrescent, Minn., and running 7.1kW at 180' AG.

John Combs, Orlando FL

John relays a Miami Herald item about WXEL-42 being off. They took a direct lightning hit on the night of June 22 and told the Herald eight segments of transmission line will need to be replaced. Temporary replacement programming, placed by local cable systems on WXEL's channel, has confused viewers trying to determine why the Civil War series has been replaced by religious music videos! No word yet as to whether WXEL is back on.

Robert Grant, Detroit MI

Besides providing a good list of area LPTV activity & some notes about the affiliation switches there, Robert wonders if KOET-3 is in fact on. He says it was one of his most frequently-seen skip targets but is now conspicuously missing– and it's also missing from the logs of other DXers. I'll admit I've not seen it reported much lately either. It's probably too close for me to log via skip & too far for tropo, though I did log KOCO-5 this week. Robert indicates there was an article on complaints of interference to KJRH-2 in the December 1978 VUD; unfortunately I didn't join until 1988 so never saw it!

DX ETC

Too much to put anything here!

73 Doug

TV TIME TUNNEL

WRITTEN FOR THE WTFDA AND "VHF/UHF DIGEST" BY TOM BRYANT, 849 TODD PREIS DRIVE, NASHVILLE, TENNESSEE, 37221 (615) 646-2000

I suppose that veteran columnists have run into the brick wall that I hit in preparing this month's 'TIME TUNNEL'...nothing turned out the way I had planned! Oh well, maybe there's merit in spontaneity. Besides, the original plan involved editorial comment... probably a 'no, no' for this space under any circumstance. Next month...no promises ABOUT stories...you'll get the real thing!

CRYSTAL BALL DEPARTMENT: 'Time Tunnel' has the amazing ability to see into the future as well as peer back at the past! Swami Tom foresees the arrival of what every DXer has wanted for years...an accurate, up-to-date roster of U.S. and Canadian VHF and UHF transmitters, including LPTV's, repeaters and satellites. There's even basic data on most Mexican transmitters within DX distance of the U.S. Technical and operating info (including coordinates) is listed; but QSL hounds should be aware that mailing addresses and phone numbers are not. WTFDA member and "TV NEWS" editor Doug Smith has spent almost a year gathering information for this directory; and says it'll be ready for publication this fall. I've been privileged to have access to a rough draft and wanted to let VUD readers know that regardless of what he decides to charge for it, it will be a BARGAIN! Several other club members have also had a chance to look it over, and seem to be equally impressed. Since Doug tends to be rather low profile when it comes to horn-blowing, I'll do an 81-toot salute in his behalf (no honks for channels 1 or 37)! Seriously, this is an extremely well researched and well laid out database. The content consists of more or less the same technical data found in the 'TV FACTBOOK' and "BROADCASTING YEARBOOK"; plus the official DOC database for Canadian listings. All this is supplemented by updates from DXers. It's presented in a user-friendly format...and the yet to be announced price will assuredly be a fraction of the cost of the better known resource books. Like all publications of this type there will undoubtedly be some glitches, but overall there's an enormous amount of very accurate data crammed into the 360 pages. *[Ed. note: I am aware that there has been past criticism of 'plugging' products in the VUD; but feel that in this case the uniqueness of the database and its value to DXers merits all the attention it can get. tjb]*

'OTHERNESS'... I don't know if Bruce Elving originated that word or not, but it was a trademark during his many years as "FM NEWS" editor. Since I'm 'plugging' stuff, I might as well mention that his excellent publications ('FM ATLAS' and 'FM MEDIA') are still going strong and are virtual must-have items for FM dial twisters. The reason Bruce is mentioned here is that he sent me a reproduction of a 1966 "Hammond Family World Atlas" showing the location of Warmley, SK. Interesting to know that CFSS-tv's city of license actually DID show up years ago!

NAME DROPPING: **Bill Hale** (NRC column editor) of Meridian, ID sent some detailed material on very early picture transmission systems. **Frank Aden** of Boise, ID had an update on KFXD as well as a promise of another Idaho historical column...hopefully with artwork by still another Idahoan, **Robert Williams** of Twin Falls. **Mike Collins** of Bridgeport, CT submitted some clips about the demise of several PA U's in the mid 50s; and a CT station that apparently did not have one single viewer! There's an interesting feature on KGVO-tv in Missoula, MT sent in by **David Shapiro** down in Griffin, GA. Several funny tales about the inaugural telecast at WDAY-tv in Fargo (as related by former WDAY staffer **Bill Snyder** in "WORLDRADIO") were shipped to 'Time Tunnel' by **Randy Miltier** of San Jose, CA. Some excellent KTLA (5) 10th anniversary photos arrived via **Willis Monk** of Collegedale, TN. Then, there's a ton of material from **Dave Nieman** and **Bill Eckberg**...not to mention the CITY-tv (Toronto) goodies from **Bruce Hall** in Brantford, ON; and miscellaneous contributions from several other sources. All items mentioned will eventually be published here, and should make for great reading. **THANKS TO ALL FOR YOUR SUPPORT.**

AUGUST 1994 — DEADLINE: The 5th — LOG CUTOFF: 3 months from postmark

WOW! I guess you could call this a good season, hi. I have never had to type up such a big column before! This has been, by far, my best season personally, much better than 1987 and 1990, when I did quite well. Many DXers have related similar high opinions of the summer of 1994, with many comparisons to the legendary 1980 season, or even people calling this year the best ever. The first sign that this would be a memorable summer was the period June 9-12, with a major opening each day, with strong signals, long openings, and unusual distances common (both short and long). June 21st was also hot, but the last week of June into the beginning of July was quite possibly the most active skip period on record, read on and see!.....

Frank's Comments are on the next page!

FRANK MERRILL'S comments.

NOTES:
#1- 1827 May 13: Hard to believe, but this is the first Baltimore station ever logged by me, in nearly 29 years of FM DXing, from MI, OH, and IL! And, yes, I did not hear DX from here, either.
#2- 1627 May 14: Broadcast of All Things Considered is made possible in part by Kosterline Seeds in Dodge City, KS and by -- member FDIC -- spiel about "Abilene's Dwight Eisenhower" and D-Day, K.C. KS news item, fade (I called KANZ 91.1, which has KNZA 90.5 // to it, and they confirmed I had them!)
#3- 1200 May 16: Logged on car radio at Industry, IL (well within 25 mile radius of Macomb)
#4- 1828 June 9: This had me fooled at first, because they were in Spanish with salsa music, and a potential 2-Es direction was open. A scant half hour later, this path did "prove" itself.
#5- 1844 June 9: Previously logged as St.Mary's, GA, I count stations as new if city of license crosses state lines.
#6- 1218 June 10: Ad or PSA mentioning Yucatan a lot, including symphonies & The University slogan "Univsersidad Éstereo", and "Radio Univsersidad en la F.M., com music para escuchos", educational stn?
#7- June 18: Opera, parallel to CBC Eastern satellite feed on Anik "bird" - local WCBU off for maintenance,had been my most - wanted, or one of them!
#8- 1907 June 19: Religion (preacher) in MONO, PTA: Intermountain region. Very mysterious!
#9- 1912 June 19: Other than WIRK 107.9, heard from Fargo, ND in 1983 (car radio), this is the furthest U.S. FM I've ever logged
#10- 1820 June 21: I was receiving NWS stations from Tampa (162.550) and Daytona Beach (162.400) in and out during this period, with brief tentative WSVN-7 Miami CCI at 1814.

HARRY HAYES comments

NOTE#1: These three 105.5's, when plotted on a map are somewhat co-linear to my location. Today's FM skip was the most intense of the month but only to this small area.
NOTE #2: This is as far west as I've ever gone into Texas from here. A very good signal for the distance.
NOTE#3: Non-stop oldies mixed with currents. IDs only as "FM89". This was undoubtedly Bermuda. (Yep, I had them at the same time-gc). At the same time on TV, on chs 2 & 3 I had mixed Spanish stations which I suspect to be 2Es to South America. This skip cloud later moved west into Florida but produced little skip in the FM range. It was very, very intense on frequencies below FM, however. I'm anxious to see what others saw and heard on June 26.
I cannot complain about 1994. This is the best skip season I've experienced in a long time. Let's hope July turns out spectacular also. Despite this June did have some long "non-skip" periods. I guess we should expect this of any season.

A very early and intense Es so far this season. The June 12th skip was the most intense I've seen in many years. The family and I took a vacation in Horseshoe Valley, Ont. (about 10 miles north of Barrie, Ont.) from June 19 to 23. Had some good tropo on the morning of the 20th to Northern Michigan (yeah, that was a nice opening!-gc). Taped about 3 hours worth of Canadian stations and DX between dips at the pool and sight-seeing. Came back trhough Niagara Falls and the Finger Lakes Region on the 24th. All the Ithaca, NY stations have lousy DJs!, See Ya, *Dan. O*

(June 11th:) Unusual skip highlighted this opening. Stations were so strong that many frequencies were nothing but HISS as stations were 2 to 3 deep at the same signal level, also short skip to two separate areas. I heard many accounts of ths short skip that others had - an AMAZING OPENING! (June 12th:) 52 stations, 32 new- my best opening ever. Just about SEVEN HOURS of marathon e-skip session. I think this will rank in the Top 10 of all FM openings of all time. (At this rate, EACH of the top ten of all time will be from this year, hi -gc). We had SEVEN openings above 106 Mhz so far. Wow! Is 1994 a good year for skip or what? (June 27:) 42 stations in three separate openings all in one day. Again, I must say, 1994 is the most e-skip I have ever seen in any year, so I could say 1994 is my best year for e-skip to date! I guess this year sorta makes up for those "dry years" we had in the past. We certainly could use more of the IL-KY-MO stuff + if we could ever get a WISOONSIN opening it would be a clean up to say the least! Wow, what a year for e-skip! P.S. 6/27/94 at 4 o'clock in the MORNING, the scanner was going off and 10 meters was open to Florida, incredible!

COMMENTS: What can I say. The season has been a gas and I've been stuck in Toronto, too busy to snag much of it. But I ain't complaining cause life could be a whole lot worse! Never store data on a computer without a backup. My biggie June 12 Es and minor June 13 Tr disappeared into cyberspace, breaking the date/time log I've kept since 1978. June 20 Tr was fun. Signals not too far but DX o/local CFNY at Scarborough Bluffs, plus a station briefly over 97.3.Unprecedented and unbelievable! The show goes on! 73s, Saul

0330 "Misc Norfolk FMs in ie 92.9, 94.9, 100.5, 101.3 "

Nice to be in on one of the longer openings in memory. Initial tip was from former club member Clarke Ingram in Pittsburgh, then mostly one minute tip trade calls w/Bill Nienajadly, Bob Smolarek, Joe Fela, Eric Fader, Greg Coniglio. Rick Shaftan was in FL listening to PQ per Bill. Also sent 2 messages to the e-mail network of people requesting such notification. The 6/12/94 opening was interesting in that it went to TX. came back to FL as well as some shorter-than usual skip distances into GA, then went back to TX and headed North but died out around darkness at 9 before doing 'serious damage' from MN and the Dakotas,hi. Many more openings in June but want to get this out now before Greg's NFM is longer than his thesis hi.

FRED NORDQUIST - 7945 BOXFORD ROAD - CLAY, NEW YORK 13041-8606

Equipment: Receiver-Carver TX-11a with five (TOKO) 110 khz filters modified, switched to 50 kHz tuning steps, and mute defeat mod. Antenna-Two CM Stereo Probe 9s (SP9s) (on separate masts) at 30' & 35' AGL. CAC-11 75 ohn coax feedlines (cut 1/2 wavelength difference at 100 Mhz), tuneable phase box (3 mini variable capacitors in series), directional coupler (signal combiner) and RS variable attenuator for antenna matching/phasing, and home brew tuneable band-pass filter box (3 mini variable capacitors, 3 air coils & input/output baluns). Underlined new to log (with stereo).

a call change

Note 1: I decided WWSF-1 was what I heard (not WWSF in AL) because at that time, I hadn't logged any other Alabama stations yet during that opening. Also, the signal was relatively weak, making it more likely that the lower powered booster was what I was hearing.
Note 2: Signal sounded like overload or mixing products, fading in and out like Es. There were three stations being heard on 89.1 at the same time - no capture effect at all. They were WJIS-88.1 in Bradenton, WEEJ-100.1, and WLPJ-91.5 in New Port Richie. What could this be? I can't find any possible way these stations could produce a mixing product on 89.1. No 10.7 IF image fits either.

Wow! A lot of good DX this month. Maybe not as much as in past June's, but considering my 40-45 hour a week work schedule which I've never had to contend with before, I'm not complaining. It now looks like my goal of 1350 heard is possible, if not likely. Total stands at 1292 now, in 37½ months of DX'ing. 73

Hello Fellow Dxers, What a year so far!, May 23rd was a nice opening, strongest around 8:30pm. A few nice new catches.May 29 was a very SHORT opening, lasting around 2 minutes. My guess is it was longer, I just wasn't looking for it that day. June12 as everyone knows was a biggie, perhaps the strongest skip I've ever seen. I had the fortune of traveling home from vacation that day. I got to hear some stations I've never heard due to locals, even though I can't take them for my lifetime Syracuse log. The opening wound up with some short skip to Tennesee...I had just come from there on vacation!! (hello Doug!). June19th and20th showed the first real tropo here. Several new catches in to Northern Ohio...an area rarely heard here. June21st is the star date for me. The opening started out very strong in the south, and then all hell broke loose. At times there were seven or eight stations on ALL frequencies, and I found myself exausted towards the end. The new loggings speak for themselves; what a great day. The star for the day, and perhaps for this entire decade was my double hop to Burns-Cheyanne, WY, nearly1500 miles! I've wanted Wyoming for quite some time...and I finally got it. June 26 was a surprise opening..very little action on the VHF low pagers. This opening was never really that strong. Lots of unid's in this report, if anyone can help me, please e-mail me at the above address. Many thanks to my wife Sarah for allowing me to take over the telvision and stereo during the months of May-August, and to my cats Shadow and Minouche for sitting on my FM Atlas.

GEORGE GREENE - 1527 SUNSET AVE. - AKRON, OHIO 44301

June 25th E-skip

1230 93.9 jazzy type music: is this most likely Miami Beach?? (yes, WLVE, "Love 94"-gc)
1244 WOLL 94.3 FL Riviera Beach, oldies 94.3 w/oldies format,promo for Marlins tickets
1300 WCMQ 92.3 FL Hialeah, with legal ID for "WCMQHialeah/WZMQ Key Lergo", Spanish
1304 WXDJ 95.7 FL Homestead, with 4min late legal ID including Miami & Ft Lauderdale, Spanish programming
1325 unID 92.9 who might the Spanish station be on this freq??...the other 2 FLs are English as far as I know (George, I bet it was the Cuban "Radio Taino" that people are hearing this season. Check other repots in this month for more details-gc)
1330 W221AR 92.1 FL Coshocton, w/WCRF Cleveland
1335 unID 89.9yet another mystery Spanish formatted station.....anyone have any ideas??

Believe it or not, I actually was home during an FM skip opening. After a near-miss w/an opening Saturday 6/24, I did get in on one to Florida this afternoon, 6/25. First noted some South Florida rception about 12:30PM, in the form of Spanish on 92.3 and 95.7, the opening continuing until approx 2PM, when it seemed to go away about the same time the rains set in here.

29 Es 1556-1645 Es MUF 91.9 to FL (WPBT-2)

Jim's comments are on the next page.

Jim Renfrew's comments.

Thanks to those who sent suggestions about defeating the muting. I found two non-technical ways to defeat it. Pressing the time button on the volume control is one way (somewhat cumbersome as one tunes up the dial. The other way is that programmed channels always come up without the mute. I just have to remember to re-program them to the locals when I pull into the driveway so my wife doesn't find another reason to think DXers are a menace to society.) 6/27 was the most amazing experience of Es I have ever had. The full band was in for 2 1/2 hours, more than I could possibly keep up with. Semi-locals (Buffalo) were obliterated. There were frequently several stations stacked on the same frequency. My hand was aching from pushing the buttons on the radio! 6/28, in contrast, was "shallower", fewer stations, lots of fading in and out, semi-locals still dominant, with a less defined skip zone, but I got three of my furthest E-skip loggings (and a tie for my longest at 1452). Starting 7/1 I'm on the road to North Carolina til 7/18.

1200 Ah, alas....THE SKIP DIED!!!

96TIC-FM

What a long and exhausting 5 (count em', 5) hours of work. But, I don't mind!!!! If this is any indication of what this summer can bring (E-Skip wise),this might be the best summer in nearly 15 years. Remember 1980 ? Oh, BTW...WTIC-FM in Hartford, CT. (96.5) is now called "96/FIVE, TIC-FM", with a more Pop based Top-40/CHR format....but NOOOOOOOO Rap! As the PD said ""The Dog Daze are over!!!" in reference to Snoop Dog ee Dog (the rap artist). The switch happened at 10:04 am with the 1980 song "One Thing Leads to Another",by the Fixx. Quite appropriate, eh ? Til next time, bye for now. The trop was so strong (June 21st), I was able to notch out WXKS "Kiss 108" only 13 air miles away...and WITHOUT a phase box. *WPFW (89.3) in Washington was a local for hours. I called the station and spoke to the jock who was over- joyed that somebody 450 miles away in the Boston area was listening to PFW'. So much in fact, he said my name on the air and sent a very hearty HELLO to me from DC. Nice guy, his name is "Rocko". I am using the same set-up that I have been using for the past 4 years. I figure, why mess with success. I use a Sony STR/VX-750 Digital Stereo receiver with 110 khz filters, 60' run of RG/6 coax and a $20.00 Radio Shack FM Yagi antenna all fed into a 18db FM pre-amp next to the receiver. With this set-up, I have logged 35 states and the Dictrict of Columbia, plus 5 Canadian Provinces. This is proving to be a very DXable summer. Now, I have only continental states left to conquer....13 in fact. Well.....I can dream, can't I ? Boy, what an excellent 3 days of skip ! I wish to thank Greg Coniglio for the location of WQLC/102.1 in Watertown, FL. From what I have been able to gather, the 6/30/94 (Thursday) was a major opening with an MUF well above TV Channel 7. Boy, do I wish I had my Walkman now.....before some IDIOT stolwestole it. (Burrrrr!). I wish to congratulate Kurt Richardson on bagging WSVN-7 FL.....The King of the Tabloid Stations. We have WSVN's sister station WHDH-7 in Boston to contend with. It is a "schlock" operation at best. The skip as of late seems to favor the Southwest near Florida and Georgia. I hope to bag some Upper Midwest and into Canada before the season ends in August. WOOF-FM (99.7) seems to be the most frequent flyer to my area. I will NOT say "pest" as I rather enjoy listening to it. Sometimes WOOF is a local for 2 to 3 hours a pop. Well, that's it for now, but be assured.... IF SKIP HAPPENS, YOU'LL HEAR IT FROM HERE!!! GO GET EM"! 73's Pete (N1GGP)

RALPH STROBEL - 106 E. DAVIDSON STREET - MUNCIE, INDIANA 47303

Equipment: McIntosh MR-78 FM Tuner with two CM $tereo Probe 9 antennas and rotors at 38 and 36 feet above ground separated at 23 feet, with use of Bolin phase box.
*Denotes use of phase box.

Due to the fact I will be having surgery on my right eye July 12, this report will be continued next month. I have cataracts on both eyes, and now am almost completely blind in my right eye. Es quite mediocre here, compared to most. 73-Ralph

A couple of quick comments: was this a great June or what? I haven't heard this much Es since the years of the late 70s. And as I type this (July 3rd), there was Es down to Mobile at 10am again. All that we need now are a couple of bang up openings to MN/SD/ND/MB. We will see about that.

AL GERMOND - 503 OLD 63 NORTH - COLUMBIA, MISSOURI 65201

Equipment: Onkyo 9090 + homebrew dipole 25' agl. Later got 1961 vintage Finco-FM5 (10 element) yagi repaired. All skip reception noted with dipole!

Spent a productive week at the old DX haunt at Englewood, N.J.

JULY 1994 DX

1 Tr

WDSM	96.9	NY	Arlington (Pougkeepsie)
WIHS	104.9	CT	Middletown

Al Germond's report continued.

JULY 2nd Tr (Yagi repaired)

WAEF 98.5 NY Westhampton, w/WDRE

WVZC 94.9 NY (cp), still not on, reheard WXTK Cape Cod,org logged in 60s was WOCB 94.3

WBEA 104.7 NY Montauk, WSPK nulled with dipole and played with polarization. East is a terrible direction with the 400' Palisades of Hudson in the way

WEHM 96.7 NY E Hampton, also on dipole, Stamford nulled on co-ch combo--of horiz and ver polarization on dipole

WWHB 107.1 NY Hampton Bays, w/WNEW After 35 years of DXing from Audubon Rd,. Englewood, canstill use antenna and tuner techniques to bring them in. The T-9090 is a godesend and some creative use of the tripod-mounted homebrew dipole in our old attic room 25 ft agl in a location where the Palisades actually null some of the pests helps. The biggest pest is now W276AQ Ft. Lee, which is our strongest signal.

3 Tr

WDLS 93.7 PA Dallas

WKGB 92.5 PA Susquehanna, KGB-FM

WYOS 92.1 PA Nanticoke

WPRR 100.1 PA Altoona (also noted Altoona 98.1 over WOGL)

July 4 Tr

WRGN 88.1 PA Sweet Valley

WNJS 88.1 NJ Netcong (common ID with other stns), very weak; with NJN's Gov Whitman ordered cutbacks, maybe they've turned down their power!

"WVLI" 100.5 ? WVLI Variety, checked with the M St people July 6th and they have no clues. coming from NW, buried between locals on 100.3 and 100.7, any help? (Could the calls have been WVOR? Rochester does use that slogan "Variety" a lot, and the direction is right-gc)

WEZX 106.9 PA Scranton

4 Es- sporadic low end, 1pm, p/c hazy, 85 deg

KPFT 90.1 TX Houston, swamped WRTI on the dipole

KKRW 93.7 TX Houston "The Arrow"

KRTS 92.1 TX Seabrook-Houston

KSBH 94.9 LA Coushatta, never heard actual calls, kept calling themselves "KSFM"...so called them on our return to Missouri and receptionist said that was to avoid confusion with another station (KDBH 97.7 Natchitoches most likely-gc). We discussed ads heard and absolutely confirmed fact of reception. Was astounded at fact we heard from NYC area. Noted with hum on audio; were having problems with computer and SMN feed

...sadly, at 3pm, with the band dead, packed up the T9090 and headed out the door for Newark Airport and return to our usual Columbia, Mo. residence where our job restricts the time available for DXing. Our first serious experience with the T-909 confirms it as a DXing investment. While antennae are important, in the crowded spectral environment the 100-channel FM dial demands selective equipment and digital readouts are helpful. I curse the Onkyo's maddening tuning, still preferring the tactile feel of knob and the abilityto hop around easier but programming the 20 presets is actually beneficial during a big E opening.

GREG CONIGLIO - 5100 GLENWOOD DRIVE - WILLIAMSVILLE, NEW YORK 14221

Equipment: Pioneer TX-9100 tuner modified with 150khz and 180 khz filters, CM Stereo Probe 9 FM antenna ≈ 20' AGL, CAC11 & RG6 coax. Phasing: Jerrold 10 element TV antenna at ≈ 25' AGL, rotatable, into "two capacitors in a phase box", and switchable rabbit ears both into a 0-10-20 db Radio Shack amp.

JUNE 1994 DX

10 Es: MUF = 101.9 around 1630

1213 unID 100.3 "100 Jams", urban. I don't think that is was "100.3 Jams" KJMZ Dallas, I didn't have anything that far west, plus the DJ said "13 minutes into the lunch hour", so it was probably EDT

1117 WAQA 107.1 FL Melbourne, call, W-A-1-A, over CILQ for 1st null of them ever on Es 1035

This opening will continue next month. I have to stop this sometime! Amazing. I have never seen so much skip. The June 9th to 12th stretch was nice, with a nice range of distances (2-hop 1600 mi. to short 441 mi to WTKR-3 VA). Only notable trop so far is June 19-20, but it was a real nice one. The last week of june was the most amazing skip I have ever seen, with TEN days of FM skip in a row, 7 of those to near the top of the dial. Many openings were in there most of the day, with multiple clouds, and vey strong signals. At one point TV was active for almost four days staright without a break! More next month..

:SOUTHERN·FM DX:

Danny Buntin
1312 N. Skyline
Stillwater, OK 74075

AUGUST 1994 DEADLINE: 14th

SOUTHERN FM DX is for reporters from: AL, AR, AZ, CA, CO, DE, DC, FL, GA, HI, KS, KY, LA, MD, MO, MS, NC, NM, NV, OK, SC, TN, TX, UT & WV. Please report!

WHAT A SEASON, MAYBE THE 90's WILL BE KNOWN FOR SOME SKIP!

With local KILO going to 94.3 I thought I'd have 93.9 open for DXing, but KYSL squashed that after only 3 weeks. And with "the Peak" on 96.5(still no legal ID) I've lost two open frequencies this month. The tropo on the 16th was unusually widespread--from SD to OK. Lot's more Es than I've reported, but I was elsewhere(ham bands). Did pick up beaucoup ones on Es last week in June that I will report next month. Happy DXing, 73.

What a season so far! At the start of this season I had a goal of 1000 total on FM, but thought a more realistic goal was 900. After July 3, the log total stands at 1132!! That's all in one month shy of two years here. I should have my master's degree in meteorology by the time this is in print, and will be looking for a job so I probably will be moving by the end of summer. I'll have the rest of the season to increase the log total even more! I am sure others have had success this season too, as things have really been plentiful around here, with many fine skip openings! Even some high-band noted on 6/21, not only by myself but at least three other DXers. I know I've never had this much skip in a season! Nor a report this big! I hope others have done as well as I have!! 73s Matt.

Doug Smith (W9WI), 1385 Old Clarksville Pike, Pleasant View, TN 37146-8098

I LIKE THIS PLACE!!! Dunno what anyone else thinks, but this is the best skip season I've ever experienced, even among my years in Wisconsin. (Welcome to the FM DX South, Doug. DB)
Equipt.: Technics ST-G50, large VHF/UHF TV antenna(don't know what kind--boom is about 6' long) at 15'.

Note 1: This station not heard (despite 300kw ERP!) since WWTN 99.7 returned to the air over 2 years ago.
Note 3: Locals WSOF 89.9 and WRVU 91.1 both off.
Note 4: FM Atlas says XHPP, but I definitely heard "Equis Aiche Eff-A" among numerous Tampico ads.
Note 5: FM Atlas says this station broadcasts in Portuguese,but is also has some weekend programs in Spanish.
Note 6: Two clouds. KGFE-2 was in at the same time as the Florida stations.
Note 7: No format listed in FMA 15; apparently new to air. Format is alternative rock; yes, it's stereo.
Note 8: Was firmly convinced this was KQAA on skip, even called KQAA to verify. After receptionist spent 2 minutes trying to figure what their request line phone # was, they finally IDed as KOLL...

.....an additional report just in from Gus Mancuso, 5615 Inwood St., Hyatts, MD 20785
6/28 1845 unID 104.5 reference to "Lexington", k, strong southern country accent by announcer. No other trop or skip found,possible short skip or maverick high end troper?? Missed out on 5/29 Es, ended just as I tuned in for one catch around 1730 (started around 1600, according to reports in 7/94 VUD).

NOW ONWARD FOR MORE MEGA REPORTS IN THIS RECORD BREAKING SFM FOR SIZE, BIGGER THAN '80!!

Keith D. Pugh, 227 Martin St., New Hope, AL 36760

I've rejoined WTFDA after more than a year absence. The '93 seasn had no FM Es in May and an average June and only a few good days in July. The '94 season is much better so far. A note on 5/23 log of K232AC 94.3 Breckenbridge CO xltr of KOSI 101.1 Denver. This is one of 2 xltrs on 94.3 with KOSE. As far as I know, the other in Leadville. Decided to count Breckenridge based skip area I think was strongest at the time. The Leadville xltr, or any other KOSI xltr on 94.3 will never be added ot the log, only K232AC. Also on 5/23, I had no idea 2 hop was in at the time of hearing 95.3 "Quick Update". Picked out all the details later while reviewing tape of the weak-tropish sounding signal. Had almost given up hope of ever getting California...I was lucky. Now, Nevada would make all 48..But when! 73.

Eric Bueneman (NOUIH), 631 Coachway Lane, Hazelwood, MO 63042-1347 CDT

Equipt.: Realistic STA-90 AM/FM/FM Stereo receiver with Radio Shack VU-110 antenna and Archerotor at 33 feet above ground level.

The month of June began the same way the month of May ended...with trops. The logging of KZBE 95.5 came with the antenna pointed toward Springfield, IL...reception off the back side is a common occurrence around here, as two nights before, I had KSPR-33 Springfield, MO in with the antenna pointed toward Indianapolis(having WINN 106.1 and UHFs from Indy in at the same time). E-skip returned on June 9 by bagging two Family Radio stations, WFCH 88.5 and WYFR's FM sister, WWFR 91.7. Also a tentative on ex-local WRAS 88.5, but before I could hear their distinctive "Album 88" ID, the signal faded to WFCH and KUMR, which traded places dominating the channel. Shortest skip recorded from any location was WSBF 88.1, Clemson, SC, heard at the former Lamplight Lane QTH on May 10, 1986 at 500 miles. June 11 and 12 saw me hit another skip opening, mostly into the Philadelphia and New York areas, plus some outlying FMs in New Jersey(including another Family Radio station, WKDN 106.9) and one FM each in Rhode Island and Maryland. Yet another skip opening occurred on June 21, the strongest opening to Florida and southeastern Georgia, so far this season. June 27 was the first opening where I was able to bring in some DX on 88.1 even with local KDHX on the air! A trop opening into western Missouri followed the next morning. Generally, the period between 0700 and 0900 CDT is the best time for DXers in the eastern part of Missouri to receive FMs on the opposite side of the state, as in a path from St. Louis to Kansas City or Cape Girardeau to Joplin. Another opening into central and southern Florida followed in the early afternoon, turning around to the Rocky Mountain states within twenty minutes. Also noted three new FMers on the air and DX ready, WKML 106.9 (oldies for Mount Vernon), KZBE 95.5 (Classic Rock for Springfield) and WVZA 92.7(AC for Marion and Carbondale).

1200	94.7	WKQS	FL	Gifford, Kiss FM, new to air	

I can't speak for anyone else, but I have no complaints about the skip this season. Even my trip north during mid-June was bookended by two strong openings. The airport opening on 6/10 helped me through a four-hour wait at the terminal, and also proved to me that the ICF-2010 is truly inferior as an FM receiver. I had to treat each logging as +/- 0.2 MHz until I'd checked the FM Atlas.

PAT DYER RETURNS!

Pat Dyer, 5315 Silvertip Dr., San Antonio, TX 78228-2744

Equipt.: Realistic TM-101 tuner into Allied 426 (two 150-kHz filters replaced), 6 el. Archer FM antenna at 20' with rotor.

It has been a while! May 23 Es reache 144-MHz 1822-1830 into MI, WI, IL. I hope to keep these reports a little more timely now! Lots more in the June one..... 73.

PAT'S EXTENSIVE REPORT BEGINS NEXT PAGE....

Deadline: the 5th

The skip season has returned! Skip was noted on June 2, 7, 9, 10, 11, 12, 13, 14, 16 thru 22 and 24 thru 29. Some of the best days were June 9th, 12th, 21st and the 25th to 28th. Tropo has brought some new loggings to several DXers, mainly up to the 300 mile range.

Comments: Several spanish stations on 6/26, mostly just audio. Chs. 2 & 3 at 1545 EDT had World Cup Soccer. During the coverage "Radio Caracas" was mentioned. I may have had double hop to the islands or South America? ZBM-89.1 Bermuda was in at 1800, Florida was in at 1845. The best Es season of the 90's rolls on!

Notes: LOTS of ES. KDFW-4 Dallas was received an incredible 5 days in a row! ... on the 25th,26th,27th,28th & 29th.
If I was one of those network ratings' viewers, KDFW may have wound up in the top two or three stations in the Toronto market, hi.
Unfortunately, the ES was from familiar ES territory -- i.e. no ES from the elusive Canadian prairies nor from the East. Where's all the Trans-Canada ES that I managed to snag while living in Coral Harbour, NWT ? (For all I know, maybe ES is common to the north.. too bad there is no TV on ch 2-6 up that way..although low-power CFEP-4 Arviat is a possibility). 73s....

Richard Contone, 162-07 87th Street, Jamaica, N.Y. 11414

Comments: I have been receiving Ch. 65 from Vineland, NJ and Ch. 61 from Wilmington, DE on my 1979 Zenith 26" TV with a 4 element UHF antenna. I am interested in microwave TV DX.

TOM BRYANT - 849 TODD PREIS DRIVE - NASHVILLE, TN 37221 - 615-646-2000 - (CDT)

EQUIPMENT: VHF S FM: Antennacraft CS-1000 @ 20'; UHF: Antennacraft P-5 parabolic w/Antennacraft preamp @ 25'; ***U N T I L ... 6/17 when Hurricane 'Bubba' done comed 'Long and blowed down my antennys!*** After that no UHF antenna, and an unknown FM antenna as of 6/25...not too bad on low V. New and improved system for V/U and separate [new] FM site is already on order and will hopefully be in operation in August. Other gear...Emerson VCR (model 754); Portland 13" color receiver.

6/9 Es 1857 KENW (3) NM - 6/10 to 19 vacationing in Minnesota - 6/17 storm demolished entire rooftop antenna system...high winds also downed a big tree in my yard, took a big chunk out of another (I think propelling it into the antennas), and also felled several other large trees in the neighborhood. Wx bureau did not report any tornado activity although it looked a lot like there might have been one. 6/21 Es 1857 KFDX (3) TX [with bent and twisted CS-1000 remnants aimed at Shanghai]. Temporary FM/VHF (low only) up and operational on 6/26. 6/27 Es 1816 KPRC (2) TX (crawling under WKRN); and at 1817 KIII (3) TX. CCI noted on both 6/28 and 6/29 (muf 6 at times) but nothing ID'd. While in southern Minnesota (Mankato) severe CCI observed under 2, 4, and 5 from Mpls/St, and 6 @ 15 from Austin, but again, nothing ID'd. The Mankato cable system uses off-air pickups on those channels. The V's were obviously Es, and my guess for the 15 hash is Ottumwa, IA (seen in the clear last year after KQSE s/off). By the looks of E-mail reports (tnx to Doug Smith for copies) just about everyone had a better month than I experienced. I'm color burst with envy! 73's and gooDXing! -- Tom

Doug Smith, 1385 Old Clarksville Pike, Pleasant View, TN 37146-8098

Equipment: Sears 19" color stereo TV; rabbit ears for VHF; RS corner reflector & CM-7475 preamp for UHF, all indoors, for first two loggings. Remainder: same TV. Large all-channel TV antenna (dunno what kind-- got it 2nd hand from Tom B.) up 15' w/CM-7475 on UHF.

August 1994

Deadline: 09-08-94
Cut-off: 06-01-94

It looks like E skip has returned in a BIG WAY for many of the 16 reporters whose loggings grace the pages of this edition of Western TV-DX. I believe the 3rd is the only date in June on which no reporter noted any E skip!

There was also a smattering of decent tropo. On the 18th, William Draeb had good luck with lower Ontario's low power TVO repeaters. Dave Pomeroy had a nice opening to Texas on the 28th, and Pat Dyer (welcome back!) had tropo out to Florida on the 27th/28th.

This month we have two first time reporters - John Johnson from Billings, Montana and Danny Oglethorpe from Shreveport, Louisiana. Welcome! We look forward to regular reports from both of you.

CORRECTION - Ernie Wesolowski had advised me that his report of KWCV-33 in the July Western TV-DX was in error. It was actually K33AC, Pawnee City, Nebraska with a weather forecast including Kansas. KWCV-33 is NOT on the air.

Christopher W. Hanley, 1321 Beecher Avenue, Galesburg IL 61401-2027 CDT

Equipment:
VHF antenna (unknown vintage) at approximately 30 feet. Tabletop Radio Shack UHF bow tie in the attic at approximately 15 feet. 1983 RCA 13" color set.

This is my TV-DX for mid-May through June; still pretty modest, but a decided improvement over last year. I've seen enough "Membervision" (WPBT-2 Miami) to be a member and more WESH-2 than my Orlando dwelling sister. After last year, I can't complain. Here tis:

Frank Aden Jr., 4096 Marcia Place, Boise ID 83704 N7SOK MDT

Equipment:
TVs: 27" Magnavox Color Monitor, 19" JCPenney (RCA) color, 13" BMG color monitor. VCRs: Radio Shack #45 MTS, JC Penney (RCA) mono, Hitachi VM-39A Camcorder. Antenna: Radio Shack channel 6-13 14 element on rotor at 22', Winegard 20 dB preamplifier, Hi-Q filter for channel 6.

This season looked like it was starting out fairly well; then it seemed to die. We usually get one or two big openings in May, but not this year. The biggest so far was June 9. This report is through June 15. I was on vacation from June 4 to June 13, staying home, little E skip noted.

5-11 - minor opening with cci on channel 2 around 2000.
5-13 - another minor opening noted at 1800.
5-21 - opening noted late afternoon and some into evening. MUF went above channel 6, but reception was too poor on channels 3 and 5 to ID anything.
5-23 - minor opening noted around 1800-1900.
6- 9 - E skip noted in early morning and some in afternoon, but did not get really active until about 2000. Became very intense around 2100.
1717 - KBTX-3 TX (I believe this to be a new one) - "NEWS STAR".
2100 - KENW-3 NM
2230 - KFDX-3 TX (seen past 0030)
6-12 - Noted on news severe weather conditions for Kansas and Nebraska. Talked to western Wyoming on 10 meters at 1800 (very unusual, indicating intense skip). MUF went above channel 6. Saw CBS MDT zone programming on channels 3 and 5 briefly at 1825.
1600 - KENW-3 NM
2040 - KMTV and KLNE, Nebraska channel 3s, fighting it out.

I hope the season gets better! 73!

Note #1 - public service announcements and community calendar.
Note #2 - fund raiser. 1-800-222-9728. 949-1922 (Dade County).
Note #3 - WDFM 98-1 community calendar and local ads, etc.
Note #4 - WOOD-8 news as picked up (presumably) from WOTV-41.
Note #5 - snow free at 2115 for about 5 minutes.
Note #6 - ad for WCCV-FM. [I have WCCV (FM) as a noncommercial in Cartersville, Georgia. fm]
Note #7 - showing NBC program schedule. Also, local ads.
Note #8 - ID slide - "WFTE Salem/Louisville".

An interesting month DX-wise. Especially the tropo on June 18. That was the result of an east-west cold front dropping south out of Canada and pushing the hot (temperatures in 90s) muggy weather out of the area. In the cooler air, signal levels were extremely strong from lower Ontario and Michigan. After several years of not seeing the low power TVO repeaters with any regularity (5-50 Watts each), they came in stronger than ever. Channel 42 in Mindemoya (20 Watts) was even snow free for a few minutes.

I suspect the scrambled Minnesota translators on June 18 were all from the same place. [I dont' think they were all from the same place, but some were. Channel 31 could be K31BT Appleton or K31CH Erhard, channel 43 could be K43DH Austin or K43CS Erhard, Channel 51 could be K51CY Austin or K51DC Erhard, and channel 45 could be K45DF Austin or K45DJ Granite Falls. Based on your other loggings I presume 31, 43, and 51 were from Erhard. fm]

Local WXGZ-32 does indeed have their antenna on WGBA-26's tower. It's on the south side near the top. They are weaker here than when they were on their old tower. They used to be equal to WGBA-26 (as measured with a field strength meter). Now their strength is in between that of WGBA-26 and WPNE-38.

One disappointment was that I didn't see any sign of CBLN-TV-3, channel 64, even with all others in that area snow free at the time. They must have a highly directional antenna.

After nine years of taking summer courses at UWGB, I decided not to take any this time after dropping the two I had signed up for. There really wasn't anything offered that interested me, so I decided to save my $.

[I presume your channel 27 Global is CIII-TV-27, Peterborough; your channel 55 TVO is CICO-92-55, Cloyne; and your channel 55 Global is Fort Erie. Or are there other possibilities? Your logging of W44AG, Erie, on June 19 conflicts with William Hepburn's observation in the July 1994 Eastern TV-DX column that W44AG had moved to channel 42 as early as April 11. I wonder what the real story is? fm]

MAIL EARLY!

Your report must be received at PO Box 65666 by 1900 CDT on the published deadline date in order to be included in the edition of Western TV-DX being prepared.

Frank Merrill, P.O. Box 669, Macomb IL 61455 (309-833-2661) CDT

Note #1 - Both with XHDF-13. From due south. Yucatan FMs strong to 103.9 MHz.
Note #2 - Local ID slide - "Canal Seis", "Super Estrellas" - music videos. PTA: Yucatan peninsula, southeast Mexico.
Note #3 - This one fooled me at first, so be careful! I had logged this as XHAF-4, Tepic, Nayarit. They have an ID video with lower case spinning letters. Seen again a few days later, I saw that it was really XHDF (Canal 13), with a somewhat "A" like "D"! As opposed to the "Canal 13" from the due south (when XHY-3 was strong), this is from the southwest and assumed to be in the interior (XHIT?).
Note #4 - TBN from east southeast (PTA: Lexington, Louisville, Bloomington, Indianapolis, Evansville, Terre Haute). Or is this WPGD-50 via "wave-guide effect" (coming in from the wrong direction)? [I don't know of any channel 50s in Kentucky. There is a construction permit for channel 50 in Evansville (W50BN), but Evansville already has a TBN. fm]
Note #5 - Religious service (not TBN) from east southeast (Indianapolis, Bloomington, Terre Haute). Bad audio hum. [Possibly W15AY, Martinsville, Indiana (mid way between Bloomington and Indianapolis. fm]
Note #6 - Logged on office TV in warehouse: Zenith "1310" series (late 70s) 13", Winegard 8200 V/U antenna at 10', Winegard preamplifier.
Note #7 - "Flutter" against local KHQA-7, Missouri, denoting a "-" offset. Not strong, lasting only two minutes. Reception from NWS stations in Tampa (162.550 MHz) and Daytona Beach (162.400 MHz) on and off from 1810-1853+. Lower channels pretty much useless due to multiple stations.

Dave Pomeroy, 2321 SE Libra Court, Topeka KS 66605-1827 (913-266-5477) CDT

Equipment:
VHF: Radio Shack VHF/UHF. CM 6' UHF parabolic with Radio Shack preamp.

The month started with tropo into central Indiana, with Indianapolis seen on 20, 40, and 59, and the reception of KSPR-33, Springfield, Missouri with the antenna pointed toward Indianapolis. E skip was the dominant feature of the month, with openings all over the nation; none into Canada and Mexico, however. Most frequently, openings were into Florida and the Northeast this month, by contrast with more openings into the Southwest during the month of May. Some openings reached into the middle part of the commercial FM band, with two openings reaching 107 MHz around here. My Archerotor is getting a real workout with the skip and tropo, and I've been able to see more E skip and tropo thanks to this important piece of equipment. 73 and good DX, Eric, NOUIH

Danny Oglethorpe, PO Box 6688, Shreveport LA 71136 CDT

Equipment:
JC Penney (RCA) 19" TV, Radio Shack 15-1718A V/U/F (similar to VU-190) at temporary 10' agl.

Just joined the club in May. VUD is outstanding. DXed SW, MW, and FM on and off from 1968 to 1983. Bought an antenna in April after seeing an ad in the newspaper for an antenna sale at Radio Shack. Began using the new antenna in mid-May. The supplies are on hand to raise it to 34' agl. Twenty four states, the District of Columbia, and two Mexican states have been IDed so far.

I don't know how members calculate station distances, so no distances are included here this time. [Some use mathematical equations, some use a string on a map! If I have your coordinates, you don't need to provide distances; I can calculate them for you. For this column, I used the coordinates for Shreveport from the Britannica Atlas. If you can provide your latitude and longitude or a map showing the location of your antenna, I can adjust as required. fm]

Does the club sell any publications and supplies that might be of interest to new TV-DXers such as myself? [I don't know the status of club supply sales. Perhaps someone who knows can contact you? fm]

Randy Miltier, 1185 Linda Ave, Ashland OR 97520 (KK6TQ) (503-482-2314) PDT

Equipment:
Mitsubishi 20" color, Channel Master 1160A on HD-73 rotor.

TV-DX from the Bay Area in June was done on June 17 and June 28 from Newark (about 15 miles from Santa Clara)...home of TV-DXer extraordinaire Al Tobia, KB6KAX. I was at work at the fire station on June 27 and could see bars on channels 2, 3, and 4 on the cable channels. I'm sure this date was a big opening. June 28 was also a big opening, but I didn't get in on it until about 1330. Al worked the TV-DX in the morning and said it started in the Southwest and worked its way up the Midwest into Canada.

Randy Miltier (continued) When I arrived at 1330, it appeared to be into Montana. Al went to work and I finished the afternoon around 1630 and it went full circle and died in the Southwest, with KENW-3 tieing the ribbons on it.

Note #1 - Billy Graham in Columbus, Ohio. 1-204-943-0995 seen. Area code 204 is Manitoba, Canada. Possibly CBWFT-3? [Not if it was in English. 204-943 is in Winnipeg; but while I don't know, I suspect that the number is for all of Canada and is likely seen on all stations. fm]
Note #2 - KREG ID showed ch. 5, 10, 6, 3 in squares across bottom of slide.
Note #3 - "Essence Awards" was seen and was carried by Fox this date. Do Canada stations carry these programs?
Note #4 - Talked about Saskatchewan and was CBC. CBCP-3 is the only CBC in Saskatchewan my records show. [CFSS Estevan-Weyburn is also CBC. Perhaps others? fm]
Note #5 - "XEW-TV" was seen with no other ID. My Mexican station list is old. Is XHFA an "XEW" carrier?

June 23 produced some nice short skip into California, especially into Santa Barbara...got ID on tape. KCBS-2 was a little tougher to pull out and was mostly audio only. So far, overall, 1994 doesn't appear to be that great. My schedule doesn't put me in front of the TV as often as I'd like to be. I still haven't found the groove for skip here in Ashland. Until next time...

William Eckberg, 1032 Sterling Road, Dixon IL 61021 CDT

Equipment: See July 1994 Western TV-DX.

The channel 4 Mexican logging on June 10 is a new logging. The call was difficult read as it was written in longhand. I took a photo which is not developed yet. It is her XHAF or XHDF. This could get very interesting. E skip conditions were a bit usual. I hope it is XHAF. I've never logged a channel 4 Mexican. There are only a uple within single hop range.

Is KXLF-4 [Did you mean KOUS-4? fm] on? On June 22 I watched the local news on annel 4 which mentioned Butte several times.

Tulsa channel 2 on June 25 at 519 miles is very short E skip. Two things are usual. It was a weak but steady signal in for five minutes and no other E skip ations were present.

Jeff Kruszka (continued)

Note #1 - First time noted with switch from ABC to Fox.
Note #2 - KRTW-57 Baytown has apparently changed calls. [Yes. Change was granted 06/06/94. fm]

E-skip seems to have returned to a more "normal" level this summer, although I haven't been around for a lot of it!

Dennis Park Smith, 3703 Dixon St, Santa Barbara CA 93105-2419 (805-687-7803) PST

Equipment:
Sears 9" b&w semiportable Model 564.50010000 (tube) with rabbit ears.

June 23, Es: channels 2-4, seen 1700-2000. No IDs.
June 27, Es: channels 2-4, seen 1630-1800 (1720: channel 2 only. 1750: channel 4 back). No IDs
June 28, Es: channels 2-5, seen 1700-1755. No IDs

This is apparently not a good E skip season. Personal negative factors include old receiver, indoor antenna, most daytime hours at work and a local on channel 3 (KEYT). But, even when I did see E skip, clear signals were infrequent and short-lived. Has this been others' experience this summer?
Best of DX to all, Dennis

Pat Dyer, 5315 Silvertip Drive, San Antonio TX 78228-2744 CST

Equipment:
Emerson 1987 model 872 as the tuner for a 9" black & white Keepsafer CCTV monitor, Archer V-100 and 8-bay bow-tie UHF array at 20 feet with rotor.

LPTV K02MX had been programming with local K67DW since April last year (Channel America et al.) - but went off for June 5-14. Now back with just the monotonous 400-Hz and CBars!

144-MHz E skip noted here on May 23, June 10 and 11. 73, Pat, WA5IYX

NEXT MONTH IN THE V.U.D.
